## Modern Tapes for Modern Paint Systems

In 1925, after working with automotive painters, 3M introduced the world's first masking tape to improve the painting process.

In today's world, 100 years later, paint systems have greatly evolved and modern paint processes require state-of-the-art masking products, providing the reliable convenience you demand in a busy shop. We are now bringing you our optimised masking products – choose from our lean and clear product offering the tape that your individual job needs.
